

# AARON DYCK, AIA

## Project Architect

Aaron Dyck joined BBN Architects in 2009 as an intern architect and in 2018 received his architectural license in the State of Kansas. Aaron has developed a broad portfolio of work ranging from large scale master planning studies to design for new construction, large and small scale commercial projects, and comprehensive remodel projects. Aaron's perspective is shaped by his upbringing in a rural community in central Kansas, his living in the urban core of Kansas City, and his traveling and studying abroad in Europe. Out of his diverse background, he gained a professional interest in drawing and studying the different experiences of place. Aaron applies this interest through a focus on craft and intent in his sketches, computer graphics, and models.

### EDUCATION

Non-Baccalaureate Master of Architecture  
Kansas State University

### PROFESSIONAL AFFILIATIONS

American Institute of Architects, Flint Hills Chapter, President Elect - 2021
