

# NANCY BURTON

## Director of Marketing / Communications Manager

Nancy grew up on a ranch in the heart of the Flint Hills. She moved to Manhattan, KS to attend Kansas State University and instantly felt as if she'd found her second home. After having received her degree from KSU, she moved away from Manhattan for a short time before returning in 1990 when she began her career at BBN Architects Inc. Prior to her role as Director of Marketing, she held positions within the firm as Administrative Assistant and Office Manager. In addition to duties as Director of Marketing, Nancy serves as Communications Manager for many of the firm's projects. This enables the client and the firm to have one point of reference for all project correspondence.

### BOWMAN DESIGN FORUM

The annual Bowman Design Forum at Kansas State University was established in 1999 to expose third-year architecture students to the field's top professionals. Participants compete through submissions of innovative design for scholarships and interact with nationally recognized architects.

Nancy coordinates venue and travel arrangements with Kansas State University's College of Architecture Planning and Design, KSU Foundation and guest architects for this annual event.
